SUMMARY

Council to consider awarding a tender for RFT 03/2324 AGRN 1061 EPA Reinstatement Project.

BACKGROUND

Between 25 and 26 March 2023 the Shire of Beverley received severe rainfall from an intense storm resulting in significant flooding and culvert damage. The damage was widespread throughout the Shire. The damage consisted of: road carriageway and road shoulder scours; areas where unsealed gravel road pavements have been washed away; destroyed or block culverts; total destruction of culvert headwalls; bridge props washed away; and silting of table and cut-off drains.

The Manager of Works documented 130 areas of damage and estimated the damage to be approximately \$3-4 million. The Shire made application through DFES to declare the event a disaster and make emergency funding available. On 28 April 2023, the event was proclaimed an eligible disaster under Disaster Recovery Funding Arrangements, Western Australia (DRFAWA).

On 27 June 2023, Council approved the appointment of HC Construction Services Pty Ltd to manage the Disaster Recovery Funding Arrangements. Since this date HC Construction Services have developed the tender specification with the approval of MainRoads WA and DFES. Due to the stringent requirements of both agencies the process was longer than expected. Final approval to go to tender was given on

RFT 03/2324 AGRN 1061 EPA Reinstatement Project was advertised in the West Australian Newspaper on Saturday 18 May 2024 and on the Shire website from 20 May to 17 June 2024. A site visit was held on Tuesday 4 June 2024 with seven company representatives attending.

9.1 Proposed Road Closure – Unconstructed Road Reserve off Edison Mill Road, Dale

Submission To:	Ordinary Council Meeting 26 June 2024
Report Date:	12 June 2024
Applicant:	Frank Ripper
File Reference:	RO 005

Disclosure(s) Of Interest:	Nil
Attachments:	Locality Map

The proposed road closure is presented to Council for a decision to formally request the Minister of Lands to proceed with road closure.

BACKGROUND

At its 24 April 2024 meeting Council resolved as follows:

“That Council initiate the closure of a section of unconstructed Road Reserve off Edison Mill Road as depicted in the attached drawing and instruct the Shire Planner to commence with the required advertising for road closure.”

Further to the above the proposed road closure was advertised for 35 days in compliance with Section 58 of the *Land Administration Act 1997* and is being presented to Council for final consideration.

COMMENT

The proposed road closure was advertised for 35 days and the Shire received the following responses. A summary of the responses and staff comment are detailed below. Copies of the responses can be made available should Councillors so wish.

Respondent	Property	Comments	Planner's Response
Department of Fire and Emergency Services	-	No response received.	-
Telstra	-	No response received.	-
Water Corporation	-	No Objection to the proposal. There are no Water Corporation assets in the vicinity.	Noted.
Western Power	-	Unfortunately requests for general comments, feedback and approval for proposals can't be provided for without a formal application and the investigation by Western Power that follows. We suggest reviewing your query against the processes referred to in our Strategic Planning web page.	It is not deemed within the Shire's mandate or scope of the Road Closure request to the Minister that the Shire need to submit a formal application to Western Power for this purpose. Applicant Frank Ripper confirms no Western Power Infrastructure in close proximity to the proposal.

Respondent	Property	Comments	Planner's Response
John Piercey	Lot 8471 on DP124376 Edison Mill Road	No Objection to the proposal. Support on the basis of the land being sold to Frank Ripper to enable better fire management, cleaner boundaries and more suitable access of the area.	Noted

Since there were no objections to the proposal it will be recommended the road closure be proceeded with.

9.2 Development Application – Outbuilding (Storage Shed) – 415 (Lot 849) Deep Pool Road, Beverley

Submission To:	Ordinary Council Meeting 26 June 2024
Report Date:	12 June 2024
Applicant:	Complete Approvals (Owners: MJ Cartwright & KA Hodgson)
File Reference:	DEE 51395
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	No
Disclosure(s) Of Interest:	None
Attachments:	Application Letter, Map, Site Plan & Shed Drawings

SUMMARY

An application has been received to construct a Colourbond Outbuilding (Storage Shed) at 415 (Lot 849) Deep Pool Road. The application will be recommended for approval.

BACKGROUND

The subject site is located at 415 (Lot 849) Deep Pool Road, is 5.7 ha in extent and zoned *Rural* pursuant to the *Shire of Beverley Local Planning Scheme No. 3 (LPS 3)*. It contains a single house and existing Outbuildings.

The proposal is to construct a Colourbond Outbuilding (Storage Shed) with a front/street setback of 11.4 m. Clause 38 *Table 5 – General Site Requirements* in LPS3 requires a minimum front setback of 35 m.

The applicant submitted the following additional justification for the proposed departure from LPS3:

The property owners believe this is the only valid position for the proposed outbuilding.

- The “shed” is to be used for general household storage and as a private craft workshop for the property owners, rather than a “rural outbuilding”.*
- Approximately 10 acres of the property is currently being divided and fenced into paddocks for stock. Having this “shed” in a paddock will not work logistically.*
- Should the “shed” be moved to a 35m setback, it would be positioned within the owner’s significant bank of solar panels which have been strategically placed on the property.*
- The “shed” is currently positioned for ease of access from the front gate and the residential dwelling.*
- The current proposed location is on the most stable land of the property, not the soggy ground that can be found elsewhere on this property which would require substantial and costly earthworks.*

COMMENT

When considering the proposed reduced front setback as requested, Shire planner is of the opinion that the following aspects of the proposed development should be taken into consideration:

- The practical siting of the Outbuilding on the property;
- The general character of the immediate area;
- The proposed use of the Outbuilding; and
- The size of the subject property.

It is the opinion that the proposed siting of the Outbuilding at the subject property is such that it will not have any adverse impact on any owners or occupiers in the general locality or in the area adjoining the subject site, and is deemed practical under the specific circumstances.

Clause 30 (2) of LPS3 affords the Council the discretion to approve a Development Application contrary to the *Additional Site and Development Requirements* (Clause 38 in LPS3) – in this instance, the reduced setback.

The proposal complies with all aspects of Council's Outbuilding Policy and the proposal will be recommended for approval.

9.4 Development Application – Proposed Telecommunications Infrastructure Facility – Lot 6488 on DP118699, Potts Road, Beverley

Submission To:	Ordinary Council Meeting 26 June 2024
Report Date:	13 June 2024
Applicant:	CRISP Wireless – Landowner: DB Sims
File Reference:	POT 291
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	No
Disclosure(s) Of Interest:	None
Attachments:	Application Documentation (Commercial in Confidence)

SUMMARY

An application has been received to develop a Telecommunications Infrastructure Facility (a 30m communications tower and ancillary infrastructure) at Lot 6488 on DP118699 Potts Road, Beverley. It will be recommended the application be approved.

BACKGROUND

The proposal

CRISP Wireless Pty Ltd proposes to establish a telecommunications facility in order to extend their fixed wireless broadband footprint in the Wheatbelt. The Infrastructure proposed will consist of amongst others a 30m high tower and a sea container housing communications equipment.

Please refer to the attached documentation for a full description of the proposal.

The Subject Land

The subject land is located within the *Rural Zone* pursuant to the *Shire of Beverley Local Planning Scheme No. 3 (LPS3)* is 55.7590 hectares in extent and contains broad acre farming paddocks.

The subject land has access from Potts Road.

COMMENT

In assessing this application Council should consider, amongst others, the following matters:

The Shire of Beverley Local Planning Scheme No. 3:

The subject site is located within the *Rural Zone*. The proposed *Telecommunication Infrastructure* is a 'D' use in this Zone pursuant to LPS3, which means that the use is not permitted unless the local government has exercised its discretion by granting development approval.

As submitted by the applicant in the application documentation, Shire Planner concurs that the proposal would not negatively affect the continuation of broad acre farming activities on the subject land.

Given the substantial proposed setbacks it is considered that the facility would not detrimentally impact upon the landscape or character of the rural area.

Shire of Beverley Local Planning Strategy

The proposal is deemed to be in pace with the directives of the Local Planning Strategy, where Council's actions are to "*work with the State Government, Commonwealth Government and telecommunication providers to improve internet speeds and the mobile telephone service*".

State Planning Policy No. 5.2 (SPP 5.2) – Telecommunications Infrastructure, and Guidelines for the Location, Siting and Design of Telecommunications Infrastructure

The proposal is deemed to be in pace with the directives of SPP 5.2:

Adequate and reliable telecommunications are essential for all aspects of contemporary community life, from supporting the State's economy to creating and maintaining connected and cohesive social networks. Contact between emergency services and the community increasingly relies on the telecommunications networks.

CONCLUSION

The proposal will be recommended for approval on the grounds of the following:

- The proposal is deemed to be consistent with the relevant State Planning Policies, the Shire of Beverley Local Planning Strategy and the Shire of Beverley Local Planning Scheme No. 3;
- The proposed telecommunication infrastructure facility will benefit the immediate and wider community by the provision of improved telecommunication broadband wireless services.

11.3 Budget 2024/25 – Salaries and Wages Increase

Submission To:	Ordinary Council Meeting 26 June 2024
Report Date:	18 June 2024
Applicant:	Shire of Beverley
File Reference:	ADM 0092
Author and Position:	Simon Marshall, Deputy Chief Executive Officer
Previously Before Council:	Occurs Annually
Disclosure(s) Of Interest:	Shire Employee (Executive Contract Staff)
Attachments:	Annual Wage Review 2024-25 Announcement of Decision

SUMMARY

Council to consider approving an across the board 3.75% salary and wage increase for all Shire Staff, excluding Executive Contract Staff.

BACKGROUND

Council is required under the Local Government Industry Award 2020 to pass on minimum wage increases to base salaries as outlined in the Award.

Historically, the minimum wage increase has been applied to all Award employees current wage, including wages over Award.

Executive Staff under contract, including the CEO, DCEO, Manager of Works, Manager of Development Services and CESM are treated in line with their negotiated contracts.

COMMENT

The decision of the Fair Work Commission (FWC) Expert Panel for annual wage reviews has increased the National Minimum Wage and minimum rates of pay in modern awards by 3.75% for the 2024/25 financial year.

The increase to the minimum rates of pay in the Federal Local Government Industry Award 2020 (Award) will come into effect from the first full pay period on or after 1 July 2024.

This increase will need to be passed on by Local Governments operating in the Federal industrial relations system that:

- pay the minimum wage rates in the Award, and
- have federal enterprise agreements that incorporate increases to modern award wage rates.

The Fair Work Commission Expert Panel advises “*If you apply the Local Government Industry Award 2020 but pay wage rates higher than the minimum Award rates, you will need to review your internal policies and procedures and contracts of employment to determine when and how your Local Government usually provides wage increases.*”.

Note Council is currently transitioning to the State Award system. Currently, the *Local Government Industry Award 2020* is our transitional instrument. **The change in Awards will come into effect in January 2025.**

In 2023/24 Council increased certain positions wage rates to bring them up to the Average SAT4 level as reported in the 23/24 WALGA salary review. The increases passed on in 23/24 are as follows:

Position	SAT 4 Matching (%)	Effective Increase (SAT 4 + 5.75%)
Grader Operator	3.08	8.83
Manager of Works	5.93	11.68
Mechanic	1.50	7.25
Payroll Officer	9.66	15.41
Plant Operator	2.79	8.54
Project Officer	10.33	16.08
Tourism Officer	18.14	23.89
Town Planner	8.36	14.11
Works Supervisor	6.04	11.79

Contract rates are reviewed annually in line with the individual Contract agreements, however, where annual increases are not addressed under contract, it is proposed that the 3.75% Award increase also be passed on to these employees.

The superannuation Guarantee fee is also increasing 0.5%, to 11.5% in the 2024/25 financial year.

Annual Wage Review 2023–2024 – Announcement of Decision

[1] We are announcing today the decision we have reached in this year’s Annual Wage Review.

[2] The Annual Wage Review is conducted in accordance with s 285 of the *Fair Work Act 2009* (Cth), which requires the Fair Work Commission to undertake two tasks.

[3] The first task is to review, and make, the National Minimum Wage order. The only function of the National Minimum Wage is to set a minimum rate of pay for employees in the national industrial relations system who are not covered by a modern award or an enterprise agreement. Only a very small number of employees are actually paid the National Minimum Wage and will be affected by this decision.

[4] The second task is to review modern award minimum wages. This is the most important aspect of the Review. There are 121 modern awards which apply to employees in the national industrial relations system in various industries and occupations. There are also a small number of modern enterprise awards which apply to specific business enterprises. Each modern award sets minimum wage rates for employees working in the industries, occupations or enterprises covered by the award. In setting modern award rates of pay, the Commission is required to take into account the amount of the National Minimum Wage.

[5] Approximately 20.7 per cent of the Australian workforce, or about 2.6 million employees, are paid in accordance with minimum wage rates in modern awards. They, and their employers, are directly affected by this decision. In addition, there are some categories of employees who are indirectly affected by way of the Review outcomes being ‘flowed on’ by various means. Our estimate is that this decision will therefore operate upon the wages of about a quarter of all Australian employees.

[6] The characteristics of employees who rely on modern award minimum wage rates and are therefore directly affected by our decision are significantly different to the workforce as a whole. They mostly work part-time hours, are predominantly women, and almost half are casual employees. They are also much more likely to be low paid.

[7] Because of these characteristics, the broader economic effect of Annual Wage Review decisions is limited. The total wages cost of the modern-award-reliant workforce constitutes less than 11 per cent of the national ‘wage bill’.

[8] Furthermore, the effect of the Review decision across the economy is not uniform. About two-thirds of the modern-award-reliant workforce are employed in only four industry sectors. Other industry sectors have negligible numbers of modern-award-reliant employees.

[9] The *Fair Work Act* requires us to take into account specific considerations in conducting the Annual Wage Review. These include relative living standards, the needs of the low paid, workforce participation, the performance and competitiveness of the national economy, and the need to achieve gender equality. We have taken all of these considerations into account.

[10] In conducting the Review, we have received submissions from a range of stakeholders, including the Australian Chamber of Commerce and Industry, the Australian Council of Trade Unions, the Australian Industry Group, the Council of Small Business Organisations, Australia, various other employer and employee organisations, and the Australian Government and State governments. A number of parties have advanced specific proposals for wage adjustments to be made in the Review. These are set out in the appendix to our written decision. However, we make clear that the Annual Wage Review process is not one of adjudication between competing proposals. While we have taken the submissions made into account, our statutory task is to make our own assessment as to what constitutes a safety net of fair minimum wages.

[11] We have decided to increase the National Minimum Wage and all modern award minimum wage rates by 3.75 per cent, effective from 1 July 2024.

[12] In determining this level of increase, a primary consideration has been the cost-of-living pressures that modern-award-reliant employees, particularly those who are low paid and live in low-income households, continue to experience notwithstanding that inflation is considerably lower than it was at the time of last year's Review. Modern award minimum wages remain, in real terms, lower than they were five years ago, notwithstanding last year's increase of 5.75 per cent, and employee households reliant on award wages are undergoing financial stress as a result. This has militated against this Review resulting in any further reduction in real award wage rates. At the same time, we consider that it is not appropriate at this time to increase award wages by any amount significantly above the inflation rate, principally because labour productivity is no higher than it was four years ago and productivity growth has only recently returned to positive territory. We have taken into account that the labour market and business profit growth overall remain strong, but the picture is less positive in some of the industry sectors which contain a large proportion of modern-award-reliant employees. We have also taken into account that modern-award-reliant employees will shortly receive the benefit of the Stage 3 tax cuts and the Budget cost-of-living measures, which are projected to increase real household disposable incomes over the next 12 months. We have treated the forthcoming increase to the Superannuation Guarantee contribution amount as a moderating factor.

[13] The increase of 3.75 per cent which we have determined is broadly in line with forecast wages growth across the economy in 2024 and will make only a modest contribution to the total amount of wages growth in 2024. We consider therefore that this increase is consistent with the forecast return of the inflation rate to below 3 per cent in 2025.

[14] We have also determined to establish a program for the timely resolution of gender undervaluation issues arising in respect of certain modern awards. A gender equity research project which was undertaken as a result of the decision in last year's Review has now been completed, and this has permitted us to identify priority areas for attention. Modern awards and classifications applicable to early childhood education and care workers, disability home care workers and other social and community services workers, dental assistants, medical technicians, psychologists, other health professionals and pharmacists will be the subject of Commission-initiated proceedings to examine and address gender undervaluation. These proceedings will commence shortly after the issue of this decision and we intend that they will be completed by the time of next year's Review, which will then move on to the consideration of other gender undervaluation issues.

[15] We conclude by thanking all parties that participated in the Annual Wage Review process for their contributions. We also thank the staff of the Commission for their assistance.

SUMMARY

Council to review the Fees and Charges Schedule for the 2024/25 financial year.

BACKGROUND

The Shire of Beverley's Schedule of Fees and Charges is reviewed annually and forms part of Council's Annual Budget.

COMMENT

The full Schedule of Fees and Charges is attached. Generally, a blanket percentage increase of 3.6% has currently been applied in line with March Quarter CPI. Previously, Council has considered increasing fees and charges at the same percentage rate as any intended Rate increase.

Variations to the 2024/25 Schedule include:

- Increase to Caravan Park and Onsite Accommodation Booking charges;
- Increase to Hunt Road Village rental charges;
- Increase to Asbestos Burial fees; and
- Increase to Standpipe water charges in line with Water Corp supply and water rate increases.

Fee Schedule

The draft 2024/25 Fees and Charges schedule includes a proposed increase of CPI (3.6% March Quarter All Groups – see attached).

Some fees are increased annually by CPI under agreement, these fees are identified in the notes section of the schedule. These increases have been applied.

Statutory charges (for Dogs/Cats, Health, Building and Planning) may change following advice from the relevant Government departments. If changes do occur, the schedule will be updated accordingly.

- (a) its intention to do so; and
- (b) the date from which it is proposed the fees or charges will be imposed.

Section 41 of the *Health Act* provides that every local government may from time to time, as occasion may require, make and levy as aforesaid and cause to be collected an annual rate for the purpose of providing for the proper performance of all or any of the services mentioned in section 112, and the maintenance of any sewerage works constructed by the local government under Part IV. Such annual rate shall not exceed —

- (a) 12 cents in the dollar on the gross rental value; or

Provided also, that where any land in the district is not connected with any sewer, and a septic tank or other sewerage system approved by the local government is installed and used upon such land by the owner or occupier thereof for the collection, removal, and disposal of nightsoil, urine, and liquid wastes upon such land, the local government may by an entry in the rate record exempt such land from assessment of the annual rate made and levied under this section, and, in lieu of such annual rate, may, in respect of such land, make an annual charge under and in accordance with section 106 for the removal of refuse from such land.

Section 112 of the *Health Act* provides that:

 - (ga) The construction and installation of plant for the disposal of refuse, rubbish and sewage.
 - (h) The collection and disposal of the carcasses of dead animals, provided that it shall not be lawful to deposit nightsoil in any place where it will be a nuisance or injurious or dangerous to health.
- (2) Any local government which has undertaken or contracted for the efficient execution of any such work as aforesaid within its district or any part thereof may by local law prohibit any person executing or undertaking the execution of any of the work undertaken or contracted for within the district or within such part thereof as aforesaid, as the case may be, so long as the local government or its

contractor executes or continues the execution of the work or is prepared and willing to execute or continue the execution of the work.

- (3) After the end of the year 1934 no nightsoil collected in one district shall be deposited in any other district, except with the consent of the local government of such other district, or of the Executive Director, Public Health.

Section 30 of the *Residential Tenancies Act* provides that:

- (1) Subject to this section, the rent payable under a residential tenancy agreement may be increased by the owner by notice in writing to the tenant specifying the amount of the increased rent and the day as from which the increased rent becomes payable, being a day —
 - (a) not less than 60 days after the day on which the notice is given; and
 - (b) not less than 6 months after the day on which the tenancy commenced, or, if the rent has been increased under this section, the day on which it was last so increased, but otherwise the rent shall not increase or be increased.
- (2) The right of the owner to increase rent in accordance with subsection (1) —
 - (a) is not exercisable in relation to an agreement that creates a tenancy for a fixed term during the currency of that term unless the agreement provides that the rent may increase or be increased; and
 - (b) in any case, may be excluded or limited by agreement between the owner and the tenant.
- (3) A notice of increase of rent that has been given in accordance with this section and that has not been withdrawn by the owner varies the residential tenancy agreement to the effect that the increased rent specified in the notice is payable under the agreement as from the day specified in the notice.

Section 66 of the *Waste Avoidance and Resource Recovery Act 2007* (Local government may impose waste collection rate) provides:

- (1) A local government may impose on rateable land within its district, and cause to be collected, an annual rate for the purpose of providing for the proper performance of all or any of the waste services it provides.

 - (a) 12 cents in the dollar on the gross rental value; or
 - (b) where the system of valuation on the basis of the unimproved value is adopted, 3 cents in the dollar on the unimproved value of the land in fee simple.

7.3 Notice of Decision

As soon as possible, but in any case within 45 days, the applicant will be provided with a notice of decision which will include details such as:

- the date the decision was made;
- the name and designation of the officer who made the decision;
- if the document is an exempt document the reasons for classifying the matter exempt or the fact that access is given to an edited document;
- information on the right to review and the procedures to be followed to exercise those rights.

If you are not satisfied with the decision made in relation to the request, you can ask for a review of the decision.

8. Amending Personal Information

The right to amend personal information held by the Shire ensures information does not unfairly harm the person referred to, misrepresent facts about them or give a misleading impression. An application can be made to the Chief Executive Officer to correct or amend any documents containing an individual's personal information.

The application must be in writing, providing details and if necessary, documentation to support claims that the information the applicant seeks to have amended is inaccurate, incomplete, out of date or misleading.

The Shire will inform the applicant of its decision and its reasons and will advise the applicant of their right of review should they be dissatisfied with the Shire's decision.
